Prof. Stefan Lalkovski
Faculty of Physics
Sofia University "St. Kl. Ohridski"
5 James Bourchier Blvd.
Sofia 1164, Bulgaria

Dear Prof. Lalkovski:

We are pleased to invite you to visit the Physics Division of Argonne National Laboratory during the period of August 1, 2022 – October 31, 2022, in order to complete your Fulbright fellowship assignment. During your stay, we will collaborate in Nuclear Data research by assisting with the collection, analysis, evaluation, and publication of a broad range of nuclear data.

The Physics Division has about 60 professional staff, including postdocs, and about 10 graduate students, and it consists mostly of nuclear and atomic physicists.

We are very enthusiastic about your prospective visit to Argonne.

Sincerely,

A handwritten signature in black ink, appearing to read "Fredrik Tovesson".

Dr. Fredrik Tovesson
Physics Division Director
Argonne National Laboratory
