НА ФАКС № 9460 255

ДО

**ПРОФ. БОЯН БИОЛЧЕВ**

**РЕКТОР НА СУ „СВ. КЛИМЕНТ**

**ОХРИДСКИ“**

**Относно:** *набиране на кандидати за национални експерти към генерални дирекции на Европейската комисия*

**УВАЖАЕМИ ПРОФЕСОР БИОЛЧЕВ,**

С писмо на министерството на външните работи в министерството на образованието и науката постъпиха информация за вакантни работни места за национални експерти в дирекции на Европейската комисия.

Приложено Ви изпращаме описания на специфичните изисквания и функционалните характеристики за всяка от позициите, които са в областите на компетентност на повереното Ви ведомство. Условието за насмане на национални експерти са уредени в Решение на ЕК от 1 юни 2006 г., което е публикувано на страницата на ГД „Персонал и администрация“ [http://ec.europa.eu/civil\\_service/docs/regime\\_end\\_2006\\_en.pdf](http://ec.europa.eu/civil_service/docs/regime_end_2006_en.pdf)

Автобиографичните справки на кандидатите следва да бъдат изпратени в електронен вид, изготвени според формата на ЕС – European CV form, който ще намерите на следния адрес: <http://www.cedefop.eu.int/tranpracsecv/cv.asp>. В автобиографичната справка задължително трябва да се отбележи в графата “Desired Employment” точната дирекция и вакантна позиция, за която се кандидатства.

Моля да изпратите Вашите предложения заедно с автобиографичните справки на кандидатите, съгласно посочения формат, на хартия и по електронна поща в срок до 29 юни 2007 г. до МОН, дирекция „Научни изследвания“ ([v.zhezkova@mon.bg](mailto:v.zhezkova@mon.bg); [m.glavcheva@mon.bg](mailto:m.glavcheva@mon.bg))

АЛБЕНА ВУЦОВА  
ДИРЕКТОР

Formulaire A (EN)

**NOTICE OF VACANCY**

**SECONDED NATIONAL EXPERTS**

<b>1. Directorate general</b>	: DG Joint Research Centre (JRC)
- Directorate	: Institute for Prospective Technological Studies (IPTS)
- Unit	: Competitiveness and Sustainability (C&S)
- Place	: Seville, Spain
- Head of Unit	: Szabolcs Szekeres
	Tel.: 34+ 954 488 335
- Suggested date of beginning	: during the period November 2007 and June 2008

**2. Main areas of responsibility:**

The European Commission is organising a selection procedure to fill several BREF Author vacancies within the European Integrated Pollution Prevention and Control (IPPC) Bureau at the Institute for Prospective Technological Studies (IPTS) in the Directorate-General (DG) for the Joint Research Centre (JRC).

In the framework of implementation of the IPPC Directive (96/61/EC) on Integrated Pollution Prevention and Control, the main responsibility of these BREF Authors will coordinate the efforts of a team of European experts (TWG) and take responsibility to revise one of the reference documents on Best Available Techniques (BREF) foreseen in the work programme 2007/2008 of the European IPPC Bureau. A TWG is generally composed of 40 to 100 experts representing Member States, industry, environmental Non-Governmental Organisations (NGOs) and other Commission services.

Currently, the work programme of the European IPPC Bureau for 2007/2008 contemplates starting the review of the following BREFs:

- Common Waste Water and Waste Gas Treatment/Management Systems in the Chemical Sector (CWW)
- Ferrous Metals Processing (FMP)
- Chlor-Alkali (CAK)
- Mineral Oil and Gas Refineries (REF)
- Intensive Rearing of Poultry and Pigs (ILF)
- Large Volume Inorganic Chemicals (LVOC).

The European IPPC Bureau forms an integral part of the implementation of the EU's IPPC Directive, one of the Community's key instruments for sustainable production and environmental protection. The mandate of the Bureau is to organise an exchange of information between Member State authorities and the industries concerned on these best available techniques, associated monitoring and development in them. More information is available at: <http://eippcb.jrc.es>.

The European IPPC Bureau counts around 20 staff, some 15 of whom are scientific.

The BREF Authors report to the Head of the European IPPC Bureau.

The principal duties of a BREF Author are to:

- organise discussion/exchange within the TWG on issues of interest to the BREF development process and to find compromise solutions between stakeholders on difficult technical issues
- manage the BREF related information especially by researching information relevant to the BREF and analysing and validating/peer reviewing information provided by TWG members
- draft the BREF document based on the information provided and lead the technical discussions in TWG plenary or sub-group meetings.

AVIS DE VACANCE - SNE POSITIONS FOR IPTS/EIPPCB

## Formulaire A (EN)

**3. Main qualifications:**

Candidates must possess a good knowledge of industrial processes and related environmental issues in one or more of the areas relevant to the work programme 2007/2008 of the European IPPC Bureau (see above). In their application, candidates should clearly indicate in which of these areas they are qualified. This should be supported with, e.g. evidence of working or having worked on the relevant sector(s).

Candidates should have at least a working knowledge of Community environmental policies (in particular the IPPC Directive and the concepts within) and of environmental regulation practices in the Member States. Candidates should also have good interpersonal, organisational and communication skills.

The DG JRC applies an equal opportunities policy – in case of equal merit, preference will be given to the gender in minority.

**4. Languages:**

Candidates must have a thorough knowledge of one Community language, and a satisfactory knowledge of a second language. English is the predominant working language of the IPTS, a good command of English is therefore essential both at a spoken and written level.

Form A (EN)

**NOTICE OF VACANCY**  
**SECONDED NATIONAL EXPERT - SNE**

<b>1. Directorate general:</b>	<b>Research (RTD)</b>
- Directorate:	F - Health
- Unit:	3 - Infectious Diseases
- Place of work:	Brussels
- Head of unit:	Mr. Bernard Mulligan
Tel:	(32) 2-29 68172
- Date of taking up duties:	1 September 2007

**2. Main areas of responsibility:**

- Monitoring of developments in the field of infectious diseases research, with particular emphasis on poverty-related and neglected infectious diseases;
- Contribution to the preparation of work programmes and strategy papers in the field of infectious diseases;
- Management, under the supervision of a civil servant, of project evaluation sessions, contract negotiations and monitoring of projects in the above-mentioned area;
- Contribution to the analysis and impact of the programme and its actions in the above-mentioned area;
- Contribution to the dissemination of research results obtained in this area.

**3. Main qualifications:**

- Have a university degree in the area of Life Sciences (medical doctor, biologist) and an appropriate professional experience of at least 3 years;
- Have a good knowledge of Community policy, legislation and programmes, which are relevant for the areas of infectious diseases research;
- Be able to work autonomously as well as in a team, to gather and share information and ideas;
- Be able to work under pressure. Be able to communicate and work in a multi-cultural and multilingual environment.

**4. Languages:**  
A very good command of English, written and oral, is necessary. The knowledge of any other language is an asset.

Formulaire A (EN)

### NOTICE OF VACANCY SECONDED NATIONAL EXPERTS

1. Directorate general	: DG RTD
- Directorate	: I-Environment
- Unit	: 3 - Environmental Technologies and
Pollution Prevention	
- Place	: Brussels
- Head of Unit	: Andrea Tilche
- Tel.	: +32 2 299 63 42
- Suggested date of beginning	: 1 <sup>st</sup> October 2007

2. **Main areas of responsibility:** The Unit aims at promoting research in the field of Environmental Technologies addressing all environmental compartments and looking on how to prevent the generation of pollution and of waste, how to protect the environment from various damaging factors, how to design clean alternatives to existing technologies, how to treat polluted effluents more efficiently and how to rehabilitate and remediate damaged environments. The Unit deals as well with technologies for the protection of Cultural Heritage, and with methodologies of assessment of the risks and of the sustainability of technologies. The Seconded National Expert will deal with technologies for the water (municipal and industrial) sector and with technologies for dealing with waste from the forest sector and for combating forest fires.

3. **Main qualifications :**  
 Good knowledge of the environmental technologies field, in particular in the water and/or forestry sector.  
 Ability to address transdisciplinary approaches for the assessment of the sustainability of technologies.  
 Interest in working in the research funding system.  
 Good organisational skills and sense of initiative.  
 Good written and oral communication skills  
 Ability to work in a team and to get the most out of coordinated efforts

4. **Languages: English mandatory (French or German are considered as an additional advantage)**

Formulaire A (EN)

**NOTICE OF VACANCY**

**SECONDED NATIONAL EXPERTS**

1. Directorate general	: DG Information Society and Media
- Directorate	: Dir G - Components and Systems
- Unit	: Dir G.1 - Nanoelectronics
- Place	: Brussels
- Head of Unit	: Dirk Beernaert
	Tel: 68020
- Date of beginning	: 1st September, 2007

**2. Main areas of responsibility :**

R&D projects in the area of micro and nano-electronics.  
 Among other, the Secoded National Expert will be involved in the following tasks of the unit: preparation of calls and evaluation of proposals, R&D contract negotiation, project monitoring and assessment, organisation and support of clustering and consultation events, and dissemination activities.

**3. Main qualifications:**

University degree in a scientific domain related to the activities of the unit: physics, chemistry, electrical engineering, other engineering disciplines.  
 Knowledge and experience in one or more of the following fields is expected: microelectronics, nanoelectronics, nanoscience, nanotechnology, nanomanufacturing; converging technology; systems on chip; systems in a package, design of compact systems or a related one.

**4. Languages:**

Good command of English, both oral and written, is required. Other languages are an advantage.

**NOTICE OF VACANCY**  
**SECONDED NATIONAL EXPERTS**

**1. Directorate general**

- Directorate

- Unit

- Place

- Head of Unit

:JRC

:IPSC

:G03

:ISPRA

:J.DELINCE

- Suggested date of beginning

Tel. +39 0332.78.55.79

: Sept 2007

**2. Main areas of responsibility :**

Analyse control methods as applied by member states,  
Evaluate the cost-effectiveness of the methods,  
Help maintain the technical documentation describing "best practice" for the methods.  
Contribute to technical and research work carried out in the action  
Support the team in maintaining a dialogue with stakeholders.

**3. Main qualifications :**

Agronomist or geographer or statistician or remote sensing specialist or GIS specialist.

**4. Languages:**

The main working language of the Action is English but fluency in other languages is a significant advantage.

**NOTICE OF VACANCY**  
**SECONDED NATIONAL EXPERT**

1. Directorate general	: Joint Research Centre
- Directorate	: IPTS
- Unit	: AGRILIFE - J05
- Place	: Seville, Spain
- Head of Unit (acting)	: Anne-Katrin Bock
	Tel. 00 34 95 4488316
- Suggested date of beginning	: 1 November 2007

**2. Main areas of responsibility:**

The European Commission's Joint Research Centre (JRC) is looking for a senior official from a Member State to lead a small team that will develop guidelines for co-existence measures on maize for application by the Member States. This work will be carried out at the JRC's European Co-Existence Bureau (ECoB), located within the Agriculture and Life Sciences in the Economy Unit of the Institute for Prospective Technological Studies (IPTS), Seville, Spain.

Further information on the IPTS and the work of ECoB can be found at [www.jrc.es/](http://www.jrc.es/)

**3. Main qualifications:**

It is essential that the official has a working knowledge of the sciences that underpin any analysis of the co-existence between GM and non-GM crops. The official should also have a working knowledge of the relevant legislative framework. Knowledge of maize agronomy would be an advantage.

One of the official's main tasks will be to manage meetings of European experts and stakeholders on the issue and to steer the discussions towards consensual conclusions. Good communication skills and the ability to manage such meetings are therefore essential.

Minimum duration: 2 years (maximum 4 years).

**4. Languages:**

Candidates must have a thorough knowledge of one Community language, and a satisfactory knowledge of a second language. As English is the working language of the European Co-existence Bureau, a good command of English is essential both at a speaking and a writing level.
